

Achterzijde

The diagram consists of two adjacent rounded rectangular shapes, each with a red outline. The left shape is labeled 'Achterzijde' and the right shape is labeled 'Voorzijde'. A vertical yellow line separates the two shapes. The shapes are positioned side-by-side, sharing a common vertical boundary.

Voorzijde

The diagram shows two adjacent arched structures, resembling a double arch or a bridge with two spans. The left arch is larger than the right arch. Both arches are defined by a red outline. The interior of both arches is filled with a solid magenta color. A vertical yellow line runs from the base of the arches to the point where the two arches meet at their lowest point. The text 'Binnenzijde links' is centered within the left arch, and 'Binnenzijde rechts' is centered within the right arch.
